

PRESIDENT'S MESSAGE
November 2007

What great riding weather we've been having! I hope you have all been getting in some good rides. I almost came close to sort of attending what was probably a very good, real nice rally in an exciting location. Julie and I were on our way to Lafayette on Saturday, November 10, for the Swamp Scooter Rally when we stopped at the last exit before the spillway so that Julie could take her helmet off for a few moments. As we shut off the motors on the bikes, I heard Julie's cell phone ringing. It was my brother telling me that my mom had had a massive heart attack and was not expected to make it through the day. He and my sister were trying to get the family together. So we turned around and rode straight back to West Jefferson Hospital on the WestBank. I don't remember the ride at all but as it turned out it was a beautiful day. It has been a week since then and she is still here against all odds. There is even a good chance she might come home the day before Thanksgiving. I hope the rally turned out well without me and I suspect it did. I hope to get in a ride or maybe several soon.

The Christmas Party is coming up fast and I am very excited about that and hope you are too. I hope to see you there. My mom's illness has once again reminded me to do my best not to put off doing the things that I want to do. It's a good reminder for all of us.

On another note, I wonder if I'll ever get a chance to wear my winter gear. That's the beauty and the curse of living in Louisiana. Oh well, maybe we will get a couple of days of winter in December. We will also get a couple of nice riding days I'm sure. Wear all your gear and keep the rubber on the road!

Till I see you some more.

Your President,
Roy
